

Package ‘AMGET’

February 19, 2015

Type Package

Title Post-processing tool for ADAPT 5

Version 1.0

Date 2013-08-02

Author Benjamin Guiastrennec

Maintainer Benjamin Guiastrennec <guiastrennec@gmail.com>

Description AMGET allows to simply and rapidly creates highly informative diagnostic plots for ADAPT 5 models. Features include data analysis prior any modeling form either NONMEM or ADAPT shaped dataset, goodness-of-fit plots (GOF), posthoc-fits plots (PHF), parameters distribution plots (PRM) and visual predictive check plots (VPC) based on ADAPT output.

Index	3
--------------	----------

AMGET	<i>The AMGET function</i>
-------	---------------------------

Description

This function is calling the user interface of AMGET, it does not require any argument

Usage

AMGET()

Author(s)
